

# Chad Logan Hollingsworth

Principal Technology & Process Improvement | Programming

Excellent record of coordinating multi-million dollar monthly budgets and a leadership style personality with 17+ years in the workforce as an adept programmer with intuitive lean practices and a passion for innovation and development. I harbor an emphasis on individual ownership, coupled with a core philosophy of true teamwork and camaraderie as I sincerely believe that success depends on the strength of the team and I want to bring my experience and knowledge to the table as well as contributing to your bottom line.

## PROFESSIONAL EXPERIENCE

### Principal - Tech Proj/Prog Mgmt AT&T

10/2021 - Present Dallas, TX  
Rebuild market/regional applications on national platforms in Palantir and RCP. Advise regional application teams how to implement their processes on a national scale. Map data sources for importing into DEEP & Snowflake and setup more automated and accessible pipelines.

### Senior Technical Process/Quality AT&T

06/2015 - 10/2021 Farmers Branch, TX  
Innovated and implemented new processes to improve efficiency and productivity in the Central Region and Nation. I programmed, developed and advised both the regional and national applications that the lead budget analysts, project managers, auditors, and financial teams use, as well as developed many new processes/procedures for the financial teams.

Achievements/Tasks:

- Developed regional applications to improve budget/auditing processes and advised various national teams on how to duplicate/implement the budget processes across the nation.
- Advised/coded for Big Data team to gather data & develop reporting in Hive/Hadoop.
- Subject matter expert for financial data in national meetings/calls.

### Lead Budget Analyst | Mobility Project Mgmt AT&T

11/2012 - 06/2015 Farmers Branch, TX  
Managed the budgeting for cell tower builds and modifications in the North Texas Market.

Achievements/Tasks:

- Coordinated market spending of over \$1 billion dollars to meet the monthly/yearly capital budget targets.
- Met & exceeded all market & regional monthly budget goals by staying within 2% of the target.
- Consistently one of the top performing markets.
- Managed a monthly budget of \$20-50M/month.

### Supervisor | Budget Manager | Engineering AT&T

02/2011 - 11/2012 Plano, TX  
Managed the budgeting for various engineering projects where I led a team responsible for monitoring all of the engineering budgets to ensure projects and monetary allocations are in line with project plans.

Achievements/Tasks:

- Oversaw 6 direct reports

### Manager OSP | Engineering Design AT&T

01/2005 - 02/2011 Madison, MS & Plano, TX  
Designed the phone line routes for new businesses and subdivisions. Created engineering jobs, drafted assignments, budgeted/coordinated with developers at new worksites to include meetings with customers for new service opportunities.

## INDUSTRY SECTORS
