

Chad Logan Hollingsworth

Principal Technology & Process Improvement | Programming

Technical leader and data engineer with over 20 years of professional experience and 4+ years specializing in Palantir Foundry. Proven track record coordinating multi-million-dollar initiatives and leading teams to design, develop, and deploy scalable data platforms and applications. Adept at optimizing data workflows, architecting ingestion pipelines, and mentoring engineers to deliver impactful solutions. Recognized for a leadership style that balances accountability, innovation, and collaboration—driving both team growth and measurable business results.

PROFESSIONAL EXPERIENCE

Sr Forward Deployed Engr | Tech Team Lead Rangr Data

02/2025 - Present Dallas, TX
Lead the development and deployment of data solutions, leveraging expertise in Palantir Foundry and data engineering. Design, develop, and optimize data pipelines and applications using Palantir Foundry, SQL, and Python. Implement data models and ontologies to ensure data consistency and usability. Lead and mentor junior engineers, fostering a culture of continuous learning and innovation. Collaborate with clients to understand their needs and deliver tailored data solutions. Provide technical leadership and troubleshoot complex data-related issues. Contribute to the strategic planning and development of data engineering practices at Rangr Data.

Principal - Data Analyst - HQ AT&T

10/2021 - 02/2025 Dallas, TX
Work with any team in the company to improve their processes and rebuild market/regional applications on a national platform in Palantir. Advise regional application teams how to implement their processes on a national scale. Architect data ingestion patterns. Script ETLs to setup more automated and accessible data ingestion pipelines into Snowflake and Palantir, and train/help contractor ingestion teams to do the same. Code in various languages for full-stack development. Perform data analysis for reporting, dashboards, reverse engineering, and checking accuracy.

Senior Technical Process/Quality AT&T

06/2015 - 10/2021 Farmers Branch, TX
Innovated and implemented new processes to improve efficiency and productivity in the Central Region and Nation. I programmed, developed and advised both the regional and national applications that the lead budget analysts, project managers, auditors, and financial teams use, as well as developed many new processes/procedures for the financial teams.

Achievements/Tasks:

- Developed regional applications to improve budget/auditing processes and advised various national teams on how to duplicate/implement the budget processes across the nation.
- Advised/coded for Big Data team to gather data & develop reporting in Hive/Hadoop.
- Subject matter expert for financial data in national meetings/calls.

Lead Budget Analyst | Mobility Project Mgmt AT&T

11/2012 - 06/2015 Farmers Branch, TX
Managed the budgeting for cell tower builds and modifications in the North Texas Market. Coordinated market spending of over \$1 billion dollars to meet the monthly/yearly capital budget targets. Met & exceeded all market & regional monthly budget goals by staying within 2% of the target. Consistently one of the top performing markets. Managed a monthly budget of \$20-50M/month.

Supervisor | Budget Manager | Engineering AT&T

02/2011 - 11/2012 Plano, TX
Managed the budgeting for various engineering projects where I led a team responsible for monitoring all of the engineering budgets to ensure projects and monetary allocations are in line with project plans. Oversaw 6 direct reports.

INDUSTRY SECTORS

Telecommunications

EDUCATION

Masters of Science | Information Systems
Mississippi State University | Starkville, MS

Bachelors in Business | Information Systems
Mississippi State University | Starkville, MS

TOOLS & TECHNOLOGIES

Software:

Microsoft Office Suite: Word, Excel, PowerPoint, Access, Outlook; Wordpress, BSCad
Adobe Suite: Photoshop, Lightroom, Premiere; Hadoop, Tableau, Palantir, Snowflake, Eclipse, Sourcetree, Visual Studio, MySQL Workbench

Operating Systems:

Windows 7, Windows 10, Unix, Red Hat Linux- Individual Performance / Key Contributor Award 5

Programming:

HTML5, CSS3, Bootstrap, Hive, SQL, MySQL, PHP, Laravel, Javascript, JQuery, React, Vue.js, Angular, VBA, Vbscript, Python

Cloud Hosting Experience:

Amazon Web Services, ElasticBeanstalk, S3, RDS, Codestar, Lightsail, Route 53, Azure
